

FactionGames.Com

Faction games is a game development studio, publisher and marketplace for innovative titles.

Faction games is primarily a developer of video games in the genre of RPGs, particularly JRPGs. We've recently opened the door to publishing and distributing smaller indie projects as a means of expanding video games as an art form. Our hope is to provide a platform for creators as well as ourselves.

Personas

Anna (23) - Indie developer - interested in producing and distributing small titles

Jake (16) - Interested primarily in purchasing Faction games content

Todd(22) - Interested primarily in indie games
